Important – Restricted Course Choices List

Important Information

Some departments close or restrict modules for non-degree seeking students.

This can be for a variety of reasons, including: professional accreditation issues, set Sheffield pre-requisites, quota and class sizes etc.

Below you will find information about which departments have restrictions for incoming Study Abroad students.

Please ensure that you read this document very carefully; you will not be able to study modules that are closed to you.

Postgraduate Courses – not open to you

Please note that postgraduate modules are not open to incoming Study Abroad students. These are indicated by the code of the module starting with '6xxx'.

Please do not select these on your application form – they will not be approved and you will waste the opportunity for a suitable module to be pre-approved.
